Centre for Enhancing Educational Performance (CEEP)

Location
Grenda

Centre for Enhancing Educational Performance (CEEP) seeks to empower young people, irrespective of their educational and socio-economic background and promotes innovation, creativity and excellence. CEEP's curriculum excites, engages, and enriches young innovators through a hands-on and learn-by-doing approach. The FuturePREP project funded by SkYE will enroll 60 unemployed/underemployed young people. Trainees will receive training in two occupational areas: Full Stack Web Programming (FSWP), for youths who want to develop skills in multimedia designing, web development, networking, programming, and information technology. Printing and Computer Graphic Arts develops skillset in graphic design, digital marketing and multimedia that produce and integrate designs using a series of applications that bring art to lifed.
