

# National Centre of Technological Innovation Inc. (NCTI)

**National Centre of Technological Innovation Inc. (NCTI)** is an ICT training institution that aims to narrow the digital divide, by increasing access to information and increasing participation in today's global industries. NCTI offers high level technical and professional career training, and accredited courses to both Vincentian students and the business community. NCTI trainers' use a range of training styles, such as: Instructor-Led Training, Online Training, and Simulation Training to increase trainees' confidence in computer usage. The training under SKYE is aimed at offering specific ICT skills training to approximately 300 young people, over a two-year period.
